

JERRY TAN, MD

Scientific Advisor - Clinical Development

Specializing in translating acne biology into successful clinical development.

Profile

Dermatologist, clinical investigator and outcome measure developer helping biotechnology and pharmaceutical companies translate disease biology into successful clinical development programs for acne and inflammatory skin disease.

Experience

- 150+ peer-reviewed publications and text chapters
- Developer of four licensed outcome measures
- International guideline contributor
- Global clinical investigator
- Acne investigator meeting faculty and Investigator trainer
- **30+ years clinical dermatology experience**

Expertise

Translational science
Clinical development strategy
Phase II-III acne trials
Endpoint innovation
Investigator calibration
Regulatory science
Publication planning

Focus

- Novel acne therapeutics
- Acne lesion evolution
- Sebum biology
- Acne-induced dyspigmentation
- Acne scarring prevention
- Precision dermatology
- Digital outcome assessment

Selected Industry Impact

Clinical Development

- Advisor on Phase II and III acne development programs

Outcome Innovation

- Developer of CASS, SCAR-S, CompAQ and HiSQOL
- Licensed for multinational clinical trials

Guidelines

- Contributor to AAD Acne Guidelines
- International consensus groups in acne and rosacea

Scientific Leadership

- 150+ publications
- International invited faculty
- Investigator training worldwide

Therapeutic Experience

- Pharmaceutical
- Biotechnology
- Dermocosmetics
- Medical devices

Jerry Tan, MD FRCPC

Scientific Advisor | Clinical Development| Acne Innovation

Why Companies Work With Me

I help biotechnology and pharmaceutical companies reduce development risk by translating disease biology into clinically meaningful trial design, robust endpoints and consistent investigator assessments.

Scientific Strategy

Turning disease biology into
practical clinical development

Clinical Development

Endpoints
Protocols
Investigator consistency

Medical Affairs & Scientific Communication

Publications
Medical Affairs
Education

Outcome Innovation

Outcome measures
Patient-centred endpoints
Future research directions

Scientific Advisor | Clinical Development| Acne Innovation

Representative Contributions

- ✓ Scientific Advisory Boards
- ✓ Clinical Development Strategy
- ✓ Investigator Meetings and Training
- ✓ Chair of Expert Committees
- ✓ Publication Strategy
- ✓ Global Faculty Development
- ✓ Outcome Measure Development

Representative collaborations include global pharma, biotech and dermocosmetic organizations

LA ROCHE POSAY
LABORATOIRE DERMATOLOGIQUE

Anua

CUTERA®

BAUSCH+Health

EAU THERMALE
Avène

Pfizer

VICHY
LABORATOIRES

sanofi

SUN

NOVARTIS

GALDERMA
EST. 1981

Jerry Tan, MD FRCPC
Scientific Advisor | Clinical Development| Acne Innovation

Scientific Contributions

Practice-changing

- AAD Acne Guidelines
- International Consensus Statements
- National Acne and Rosacea Global Guidelines

Clinical Development

- Phase II-III trials
- Endpoint Development
- Patient Reported Outcomes

Innovation

- CASS
- SCAR-S
- CompAQ
- HiSQOL

Research Leadership

- 150+ peer-reviewed publications
- International invited faculty
- Global investigator training

Jerry Tan, MD FRCPC
Scientific Advisor | Clinical Development| Acne Innovation

Looking Forward

Throughout my career I have worked at the intersection of science and clinical medicine. The questions that interest me today are the same ones that have driven much of my research—understanding disease biology, improving the way we measure treatment success, and helping translate new mechanisms into meaningful benefits for patients.

My strengths are in scientific strategy, clinical development, endpoint innovation, investigator training, and publication planning. I am particularly interested in partnering with organizations developing therapies targeting acne biology, sebaceous gland function, inflammation and skin repair.

My current interests

- ❑ Scientific Advisory Boards
 - ❑ Clinical Development
 - ❑ Publication Strategy
 - ❑ Investigator Training
- ❑ Translational Research
- ❑ Outcome Innovation
